Cervical Spine MRI Protocol

Typical Scan Protocol

The protocol below represents a full cervical spine exam. There is variation depending on the clinical question and clinician preference. The **minimum** recommended sequences are in bold text. **It is highly recommended to include at least 1 sequence, either T2 or STIR, in the dorsal plane and at least 1 sequence with fat saturation post contrast**

Sagittal T2 Sagittal or Dorsal STIR Sagittal T1 Axial T2 Axial T1 <u>Contrast</u> Sagittal T1 Axial T1
