

Virtual Scan Voyager User Guide

Sharing publically how to use the Virtual Scan Voyager Client Interface to request a scan. It's not useful unless an installed customer, but if you are exploring how Virtual Scan can help you, this is how we operate.

Become a customer

It's a process, we can interface with most MRI and CT systems, both Unix and Microsoft systems: Start by contacting us at; <https://www.virtual-scan.com/contact> Login As a customer, you can use your assigned login and password to request a scan at: <https://virtscan.net/scan> In some cases, the system will lauto-recognize the site by IP address and other factors. Each site gets 1 login.

]

The screenshot displays the Virtual Scan Voyager login interface. At the top, the browser address bar shows 'virtscan.net/scan/'. The page header includes the time '21:39 EST' and a 'Theme' selector set to 'A'. A sidebar on the left contains links for 'Virtual-Scan.com', 'Login', and 'Logout/Clear'. The main content area is titled 'Login' and features two input fields: 'LoginID' and 'Password'. Below these fields is a green 'Verify' button. A message states: 'Login credentials are manually assigned by the Virtual-Scan team. There is no password reset method here for security reasons.' Under the heading 'Features:', a bulleted list describes the system's capabilities:

- Request a scan:
 - Schedule available techs.
 - Choose procedure options.
- View scan status:
 - Technician that has responded and accepted your scan request.
 - Update scan information, procedure, requirements...
 - Real time chat window between on site and off site technicians.
 - Web based audio/call capabilities.
 - Reports about scan summaries.
